EDUCATION

Simmons University, Boston — Bachelor of Science Computer Science

Graduated August 2024

Dean's List Spring/Summer 2024 | Senior Year GPA 3.83

PROJECTS

Cyber Vault — AES Encrypted Password Manager App

Created responsive, accessible, windows application in Java for an AES Encrypted Password Manager. Utilized Password-Based Secret Key generation. Coded and debugged 7 main Java classes.

TCG Statistical Analyses — API Data Collection/Visualization using Python and HTML/CSS

Gathered trading card data from multiple APIs using Python and SQL query.

Used Machine Learning to visualize data trends across collected data and create predictive analytics using Numpy, PANDAS, and Pytorch. All statistical models created are output automatically to a generated webpage using HTML/CSS and Javascript.
